

## How to post notifications of event changes.

**Compose** the updated hike announcement addressing the email to [HunterdonHikingClub@groups.io](mailto:HunterdonHikingClub@groups.io) from your normal **subscribed email** account and select **Send**.

(Your **subscribed email** account is where you receive the HunterdonHikingClub Groups.io notifications.)

**Tip:** add [HunterdonHikingClub@groups.io](mailto:HunterdonHikingClub@groups.io) to your contacts list to make it easy to find.

**Please Note: No login** to our secure Groups.io web site is required to do this type of post. However as an alternative, you may login to <https://groups.io/g/HunterdonHikingClub> and submit a post under 'New Topic'.

If you have questions or need help please email [HunterdonHikingClub+owner@groups.io](mailto:HunterdonHikingClub+owner@groups.io) and either Charlie, Mark or Sylvia will try to help.
